

People who help us.

Dear Lord,

Thank you for our world that you created, please help us to look after it properly.

Thank you for the healthy food we can eat, help us to choose our food wisely to remain healthy.

Thank you for our scientists, for all the medical achievements they are succeeding in our world. We pray for the people involved, especially those having life-saving transplants.

We pray for the people who help us in times of need such as firemen, police, doctors and nurses. Help them to have the strength and knowledge to help us all. We think of the fire fighters involved in the wood chip fire in Bridgend, the doctors and nurses who make us better and the police who try to keep us safe.

In Jesus name,

Amen.

Faith Y6 and Eloise Y6
